All school admissions for Coventry LA are requested via SEND Coventry (024 7669 4307). Please see Kingsbury Admission Policy for further details.

In addition, the Academy uses its own range of assessments to enable us to make accurate assessments and decisions with regards to each individual. A range of evidence is collected through the usual assessment and monitoring arrangements: if this suggests that a student is not making the expected progress, the teacher will decide whether additional and/or different provision is necessary. If you are concerned you should speak to your child's Teacher or a member of the Senior Leadership Team.

Prior to transfer to Kingsbury Academy the Senior Leadership aim to visit pupils their existing school/setting, wherever possible and will gather information about their needs. We use teacher's assessments and any outside agency reports that may be available. On transfer to Kingsbury, we carry out our own assessments and baseline each student. Throughout your child's time at Kingsbury Academy their progress in the curriculum will be ongoing and formally tracked three times a year.

For all admission arrangements or if you would like to book a visit to see the Academy, please contact the school office to arrange a mutually convenient time.

3.3 What are the arrangements for consulting and involving parents and involving them in their child's education?

At Kingsbury Academy we regard it as essential to work in partnership with parents/carers in order to achieve the best outcomes for their child.

Our main communication tool with parents is the Home-School Communication book. This is written in daily in order to communicate essential information and share what activities and achievements there has been throughout the day. It is also used by families to share key information from home. Families are always welcome to make an appointment to come into school and meet with staff.

In addition to the Home-School communication book, we have a school website providing up-to-date and regular information to parents and carers. Regular coffee mornings and events are held for families to attend as well as the learners individual Annual Review Meetings and Parental Consultation evenings.

We have a designated pastoral lead whose role is to support and signpost parents to the relevant services. We run various parental

workshops including, Communication, Internet Safety, Emotional Regulation and Behaviour.

Our Academy website <https://www.kingsbury.thrive.ac/> also provides general information about the Academy.

Kingsbury Academy recognises that transitions can be a challenging for our children and we take steps to ensure that every transition is a smooth and as positive an experience as possible:

In advance of pupils starting Kingsbury Academy we encourage families to come and visit and where appropriate spend time in the class group they will be joining.

Internal transition: At the start of the summer term we start preparing pupils for transition to their next class/school. Pupil information and pupil well-being passports will be passed on to the new class teacher in advance and planning meetings will take place with the new teacher.

We arrange transition sessions to enable pupils to meet their new teacher and visit their new classroom environment.

3.7 What is the approach to teaching students and young people with SEN?

At Kingsbury Academy we have developed an ambitious and meaningful curriculum that ensures our pupils are able to engage in broad and rich experiences. It is designed to be appropriate for their individual needs and to prepare them academically, socially, and emotionally for their next stage in education and wider life. Running throughout our curriculum are opportunities to embed our golden threads of learning and development – communication and interaction, early maths and English, self-help, physical and personal development, and independence. It is appropriately paced to allow learners to react, respond, assimilate, and generalise their learning. Further curriculum information can be found on the website.

3.8 How are adaptations made to the curriculum and the learning environment of students and young people with SEN?

Our class sizes and staffing ratios ensure that we have capacity in the classroom to deliver the curriculum effectively. Class groups range in size from 6 - 14 pupils, children with less complex needs will be in larger groups. We aim to develop skills in order that our pupils will be able to function as independently as possible and not always rely upon others to organise and direct them. It is therefore essential that we establish and maintain ways of working as early as possible. This enables our pupils to be able to organise themselves (over time) and gives meaning and understanding to their world. To do this, we use:

- Visual timetables
- Separate work areas and individual workstations
- Individual daily schedules with a defined start and finish through transitions cues
- Makaton and PECS, Objects of Reference, Communication in Print
- Visual aids for learners to respond appropriately in terms of understanding.
